Students pursuing a BS degree:

- Students in CLA and CSM must complete Calculus (Math 135, Math 140 or Math 145, or the equivalent transfer course) to meet the Quantitative Reasoning requirement. Students pursing a BS are strongly encouraged to enroll in appropriate math courses continuously until their math requirement is satisfied for their major.
- Students in CM must complete Math 134 (or the equivalent transfer course).
- Students in CNHS must complete Statistics (EHS students are required to take EHS 280, Statistics for Health Professionals).
