

ABOUT US

UMass Boston - UMass Boston's academic excellence is reflected by a growing student body of nearly 16,000 undergraduate and graduate students. The university's nine colleges and schools offer more than 100 undergraduate programs and 50 graduate programs. The University Honors Program serves 300 students who thrive on intellectual challenges. Enriched courses probe more deeply into theory or venture further into application.

UMass Boston's diverse student body provides a global context for student learning and its location in a major U.S. city provides connections to employers in industries such as finance, health care, technology, service, and education, offering students opportunities to gain valuable in-school experience via internships, clinicals, and other career-related placements.

OIRP - The Office of Institutional Research and Policy Studies is responsible for reporting student, course, faculty, staff, and academic program data to state and federal agencies, and to UMass Boston faculty, students, and administrators. We also conduct surveys and complete special analyses and reports.

Fast Facts - Fast Facts is a summary of the most commonly requested statistics. The report contains summary data on the undergraduate entering class, enrollments by gender and race, tuition and fees, five years of enrollment trends, degrees awarded for the most recent academic year, graduate enrollment, and number of faculty. It is a quick reference for describing the institution.
